

# Glass-Fused-To-Steel Feed Storage Structures

## Harvestore® Testimonial

### Wish I Had Built a Harvestore® First, Instead of a Grain Bin

Scott and Rebecca Klitzke milk 70 cows on a beautiful dairy in Sauk County, WI.

“We installed a 1770 and within 8-10 months production has gone up about 5lbs. per day. The only difference in our ration is the Harvestore®. I am really happy with it.

I am saving a ton of money not hauling, drying or paying the mill to store our dry corn.

Palatability is far better, the cows like high moisture better, I can get my corn picked sooner and get the rest of the fieldwork done before the weather gets nasty.

I wish I would have done this in 2000, instead of building a grain bin,” says Scott.

**Installing Dealer:** Badgerland Agri-Systems, Inc. Authorized Harvestore and Slurrystore Sales and Services Since the 1950's.
