

Engineered Agricultural Nutrient Management System

Slurrystore® Testimonial

Turning 40 Next Spring!

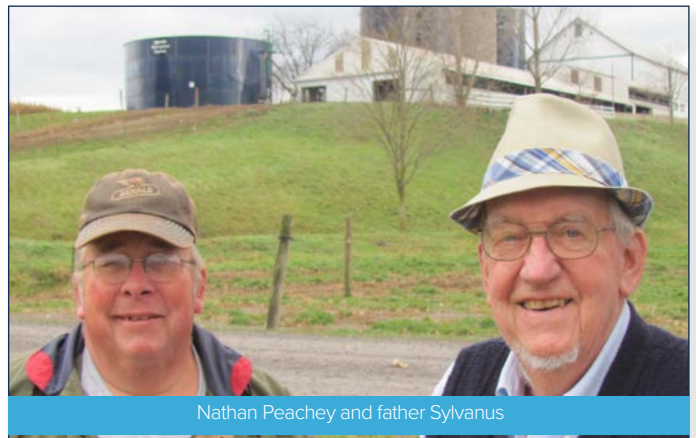

The Slurrystore® on Nathan & Sylvanus Peachey's Wills Road Farms in Belleville, Mifflin Co., was built in the spring of 1977.

"Our Slurrystore was the first built in the Big Valley and we think probably in Mifflin Co. too.

After 40 years we still like it! It's been maintenance free for us over the years and we figure we've put over 15 million gallons through it.

We wouldn't consider anything else for manure storage. It's safer than a concrete pit and hauling twice a year is much more efficient than hauling every day," says Nathan.

Installing Dealer: Penn Jersey Products, Inc. Authorized Slurrystore and Harvestore Sales and Services Since 1964.
