

Congratulation CST COVERS - Rincon, Georgia on a job well done!

Safety is the top priority in our plants and I am happy to report that we have celebrated 1 year without a RECORDABLE in our Rincon Facility. Joe Kerner and Jason Lovett cooked steaks for all employees and spent some quality time together reflecting on the efforts of the Rincon team.

The Rincon facility has transformed their safety performance with the diligent efforts of every employee to make safety their first priority. This has been a true team effort, which has included 5 minute shift starting safety talks, safety walk throughs, scheduled safety team inspections and focused effort to remedy potential safety hazards. Over 110 safety improvement action items completed in 2012. GREAT JOB!

Please join me in my congratulations to the team.

Julie Carrell

Director, Human Resources

CST COVERS
